EDUCATION

Vishwakarma institute of technology
B.Tech. in Artificial Intelligence and Data Science (CGPA: 8.74)

Pune,Maharashtra
August 2023 – June2027

EXPERIENCE

Cyber Job Simulation – Deloitte Australia

July 2025

Forage Virtual Experience Program

- Completed a cyber security job simulation involving analysis of web activity logs
- Supported a simulated client during a cyber security breach scenario
- Identified and reported suspicious user activity based on provided data

PROJECTS

Resume Analyzer | *Node.js, Express, react js , groq ai*

- Developed an AI-powered resume analyzer platform with full-stack architecture using Node.js/Express backend and React frontend
- Built RESTful API endpoints with Express and integrated file upload handling via multer with comprehensive validation
- Created responsive UI with React, Vite, and Tailwind CSS featuring real-time analysis results and error handling.
- This project is built on proof-of-concepts (POCs) and a minimum viable product (MVP) approach.

ShopNow | *MongoDB, Express, React, Node.js, Redux Toolkit, JWT*

- Built a full-stack MERN e-commerce platform with JWT-based authentication, persistent Redux-driven cart/wishlist, and a dual-checkout system supporting Cash on Delivery and a simulated secure payment gateway
- Engineered stock-protection logic in MongoDB to atomically deplete inventory at checkout, preventing overselling under concurrent orders
- Designed a verified-review system restricting ratings to users with admin-confirmed delivered orders, eliminating fake reviews
- Implemented an admin dashboard for product uploads, sales monitoring, and order-status management, with optimized paginated APIs for thousands of products

TECHNICAL SKILLS

Languages / Core Skills: C/C++, SQL, JavaScript, DSA

Environment: Node.js

Developer Tools: Git, MongoDB Atlas, VS Code, Postman

Libraries / Frameworks: Express.js, Mongoose, React.js, Tailwind CSS

Core CS Fundamentals: OOP, DBMS

ACHIEVEMENTS

Competitive Programming: Solved 250+ questions across platforms. Achieved 1600+ rating on LeetCode, 1400+ rating(2 star) on codechef and 1000+ rating on Codeforces.

Finalist - PVG Innoverse HackFest: Secured a spot in the top 12 out of 80+ teams in a 24-hour hackathon.

Paper Published: Co-authored and successfully submitted a group research paper titled “Unauthorized Access Prevention via Keystroke Behaviour Analysis” at the International Conference on Electronics and Renewable Systems (ICEARS) 2026

Open Source contribution: Contributed bug fixes and backend features to multiple open-source projects as part of Social Summer of Code 2026
